MAYFIELD MESSENGER

A message from Mr Howard

Dear Families,

This week, we welcomed colleagues from the Restorative Lab back to Mayfield for a review and research visit. Their previous visit was three years ago, making it a valuable opportunity to reflect on how far our school community has come in developing a restorative, relationship-centred culture.

The feedback was positive. Students, particularly those in Year 11, spoke clearly and confidently about the significant improvements they have seen during their time at the school. Across all year groups, students described Mayfield as a kind school where they feel listened to, valued and supported.

The review also highlighted the important role that enrichment opportunities, such as our school production, play in creating a strong sense of belonging. Students shared how working alongside peers from different year groups and building relationships with staff helps them feel connected to the wider school community.

Staff overwhelmingly reflected positively on Mayfield's restorative journey, recognising the impact that restorative conversations and community circles have had in strengthening relationships and fostering a culture of belonging. They also valued the opportunities to collaborate with colleagues across different phases and areas of the school.

We are proud of this feedback and grateful to our students and staff for the way they contribute to a caring, inclusive and supportive environment each day. As always, we remain committed to continual improvement and will continue to develop the quality of our community circles and restorative practices so that every child feels known, heard and valued.

Have a great weekend
