

## **New Mayfield School Plans Unveiled for First Time**

The re-build of Mayfield School is a government project which is led by the Department for Education (DfE) and is a centrally funded project under the Priority Schools Building Programme. Kier (Regional Building, Southern) is the DfE's chosen contractor for the Mayfield School project

Kier is pleased to invite you to a Public Information Event at Mayfield School on Wednesday 15<sup>th</sup> May 2019, between 3.30pm and 7.30pm. This is a drop-in format, where you will have the opportunity to view the architectural plans and design images for the new school building. Throughout the session, you will be able to talk to representatives from Kier, the DfE, Portsmouth City Council and the school.

As you will be aware, there is a formal process to follow in relation to the consideration of planning applications. At the event, we will explain the outline timescales for this, and our aspirations for the construction of a modern purpose-built school on the Mayfield site.

The council, Mayfield Staff and Governors have all worked very hard over recent years to create an 'all through' school which benefits children and our community. This is an exciting development which offers a purpose-built, state of the art, educational environment. There will be new teaching and recreational facilities for the school, and the new school building will benefit the pupils, staff and the local community.

We look forward to seeing you at the Public Information Event.

Yours faithfully
